COPYMASTER 1

COPYMASTER 1 & 2 MODEL OPTIONS

- Cold Lights
- Kiosk+ Software
- Book Cradles
- Printer A4, A3, A2, A1, A0

The CopyMaster adjusts automatically to the light conditions so the optional attachable lights are seldom required. Other options include book cradles for added support and kiosk style software for those users less familiar with computers or for additional computer security.

The CopyMaster 2 is available without computer and monitor. Please Contact Eye Com for Computer Requirements.

Easily print or copy books and documents to digital storage

CONVERT BOOKS AND DOCUMENTS TO DIGITAL FORMAT WITH THE COPYMASTER

The CopyMaster is a sophisticated yet easy to use overhead color camera copier for books and documents. And just like the human eye, it automatically focuses on the subject.

For those who wish to print or copy to another computer on the same network or output to digital storage such as CD or a USB device then the CopyMaster provides familiar tools to do so.

Inside the CopyMaster 1 is a high specification computer with which the user interacts via the customary flat screen monitor, keyboard and mouse. In fact the CopyMaster can easily double as a normal computer for everyday computing tasks.
